# LA3C

**About:** LA3C is Los Angeles's Premiere Culture and Creativity Festival. The multi-day event will bring together creators, artists and LA's emerging talent in new and highly interactive formats and live experiences across entertainment, music, food, art, fashion and sports.

**Mission:** LA3C is a celebration of Los Angeles's rich culture and community. This will be the first festival of its kind to fortify a city that combines diverse talent and culture like no other, while engaging with organizations solving some of the city's most pressing challenges.

# WEBINAR CALENDAR

## **Nearshoring Boom: Myth or Reality?**

### **FEBRUARY**

This webinar, held in conjunction with Sourcing Journal, will take a comprehensive look at whether the decades old promise on nearshoring is finally coming to fruition. The latest import data to the US has shown an impressive spike from several countries south of the U.S. This event will point out the hot spots and opportunities while also offering a closer examination of the challenges and benefits, both legal and logistic, with sourcing close to home.

## **Sustainability FAQ Webinar**

### **JUNE**

Selling sustainable denim requires a new set of skills and knowledge. In this webinar, a group of experts will advise retailers on the sustainable qualities to look for while placing orders, the questions to ask brands and tips on how to translate this information to their sales staff and consumers.

# LOOKBOOK

## In Season

MAY + DECEMBER

With shows on hold, the market has lost an essential element of community and tactility. In Season is a visual guide to the next season's of denim fabrics that serves as a substitute showcase for buyers and brands. The look book is a catalog of the latest denim fabrics and trims from businesses both large and small as well as a trend guide for the coming season.

### BOSSA

TURKEY  
bosson.com

**REBIRTH  
FUTURE HEALING  
NOMADIC SOUL**

**Key Fibers:** hemp, soybean, Polyester, Nylon, GOTS, Supima, Indigo, recycled polyester, recycled elastane, recycled cotton.

**On minimizing the mill's impact on climate change:** Rivet's mill in Turkey uses 100% green energy. We've also invested in producing high-quality recycled denim. We've developed a wastewater recycling system. Since 2017 we have used all our denim waste in our denim. We have also adopted several production aimed at reducing our environmental impact, including energy efficiency, water saving, process engineering, collaboration, verification and ecological design.

**On Indigo:** We are working toward zero water with Suedilux and Suedilux concepts. Suedilux uses 80 percent less water compared to conventional denim. Suedilux has the same savings and boasts a 77 percent water saving in the finishing process. All the values of the savings were measured and reported by Sustainable Apparel Coalition. Additionally, to reduce the environmental impact of garment finishing, Bossa and Rivet collaborated to develop the R2D2 concept. This concept includes sustainable finishing technology by Rivet and fabrics by Bossa made specially for this technology. The fabric is sustainable finishing technology are ozone- and laser-friendly.

**On buying GOTS:** GOTS 2.0 compliance on raw cotton and development in the purchases they make. They use transparency and traceability to help in making their decisions. Some partners with FIBRACACTO provide trust, transparency and traceability in the industry. We are also using life cycle assessments (LCA) to analyze the footprint associated with the entire life cycle of a product or service, usually from cradle to grave.

### MATERIAL SELECTION

Cotton Incorporated product development team is introducing new denim innovation in the FIBRACACTO denim with sustainability in mind, such as the 100 percent cotton ridge denim with entire plant, achieved by laser cutting the full width of the fabric, and with a additional feature.

Cotton Incorporated brought you the special denim in line with the high level of denim apparel, which featured a 100 percent cotton ridge denim with entire plant, achieved by laser cutting the full width of the fabric, and with a additional feature.
